

Greatest Saylor Quotes

VERIFIED OCT 4, 2026

21 of Michael Saylor's best-known lines on bitcoin, grouped by theme, each linked to where he said it.

How we picked them. A quote made this list only if it passed all five tests:

01 Verified

Word for word at an original source we opened: his post on X, an SEC filing, or his own slides.

02 Widely shared

Known and repeated across the Bitcoin community.

03 Core idea

Bitcoin as capital and property, scarcity, time horizon, treasury strategy, conviction.

04 Evergreen

Still true today. Not tied to a price or a target.

05 Memorable

Short enough to remember and repeat.

Every card links to its source, with the date in U.S. Eastern Time. Posts on X are quoted as written, hashtags included. "..." means the quote starts partway through the original post. We left out popular lines we couldn't trace to a source we could open, and lines tied to a price.

01 Bitcoin as capital and property

5 QUOTES

01 "The creation of Digital Property using Proof of Work and Nakamoto Consensus is a modern miracle. #Bitcoin"

POST ON X Jan 23, 2022 @saylor Source ↗

Why it matters: It frames bitcoin as property secured by math, computing work and network-wide agreement, not by a company or a government.

02 "Bitcoin is Digital Property"

POST ON X Aug 27, 2025 @saylor Source ↗

Why it matters: Calling bitcoin property, not a trade, explains why Strategy treats it as a long-term holding on its balance sheet.

03 "#Bitcoin is the Apex Property of the Human Race."

POST ON X Mar 12, 2024 @saylor Source ↗

Why it matters: He ranks bitcoin above land, gold and stocks as a store of value. Knowing that view helps explain why bitcoin is Strategy's main asset.

04 "Bitcoin is the one thing in the universe that you can truly own."

KEYNOTE SLIDES Jun 2024 "21 Rules," BTC Prague Source ↗

Why it matters: Bitcoin is a bearer asset: whoever controls the private keys controls the coins, with no middleman required.

05 "Bitcoin is Digital Capital. Strategy transforms it into Digital Credit. \$BTC"

POST ON X Jul 14, 2026 @saylor Source ↗

Why it matters: This sums up Strategy's model in one line: bitcoin is the base asset, and preferred stock (credit) is issued against it.

02 Sound money and scarcity

5 QUOTES

06 “Bitcoin is digital gold – harder, stronger, faster, and smarter than any money that has preceded it.”

SEC FILING Aug 11, 2020 MicroStrategy 8-K Ex. 99.1

[Source ↗](#)

Why it matters: This line is from the 2020 release announcing MicroStrategy’s first bitcoin purchase. It set out the store-of-value case the company still builds on.

07 “Bitcoin is the first perfect money.”

KEYNOTE SLIDES Jun 2024 “21 Rules,” BTC Prague [Source ↗](#)

Why it matters: “Perfect” points to traits like a fixed 21 million supply, divisibility and portability. It’s a thesis to understand, not a guarantee.

08 “There is no second best. #Bitcoin”

POST ON X Oct 28, 2023 @saylor [Source ↗](#)

Why it matters: Saylor argues that bitcoin, not other crypto tokens, is the only digital asset fit to hold as a treasury reserve.

09 “Bitcoin is Digital Energy”

POST ON X Mar 1, 2025 @saylor [Source ↗](#)

Why it matters: Mining spends real electricity, which ties bitcoin’s security to the physical world.

10 “#Bitcoin is a swarm of cyber hornets serving the goddess of wisdom, feeding on the fire of truth, exponentially growing ever smarter, faster, and stronger behind a wall of encrypted energy.”

POST ON X Sep 18, 2020 @saylor [Source ↗](#)

Why it matters: A vivid picture of proof of work: many miners spending energy make the network costly to attack.

03 Bitcoin on the balance sheet

3 QUOTES

11 “MicroStrategy has recognized Bitcoin as a legitimate investment asset that can be superior to cash and accordingly has made Bitcoin the principal holding in its treasury reserve strategy.”

SEC FILING Aug 11, 2020 MicroStrategy 8-K Ex. 99.1

[Source ↗](#)

Why it matters: This 2020 decision turned a software company into a bitcoin treasury company. It helps explain why MSTR trades differently from other software stocks.

12 “...We all need a Store of Value that is not based on fiat. #Bitcoin is The Solution – an investment grade, safe haven, treasury reserve asset.”

POST ON X Dec 11, 2020 @saylor [Source ↗](#)

Why it matters: The case for a bitcoin treasury starts with a worry: inflation slowly eats away at cash savings.

13 “#Bitcoin is a bank in cyberspace, run by incorruptible software, offering a global, affordable, simple, & secure savings account to billions of people that don’t have the option or desire to run their own hedge fund.”

POST ON X Dec 17, 2020 @saylor [Source ↗](#)

Why it matters: It presents bitcoin as a savings tool anyone can use, run by open-source software instead of a bank.

04 Time horizon and conviction

8 QUOTES

14 "You do not sell your Bitcoin."

[POST ON X](#) Mar 27, 2025 @saylor [Source ↗](#)

Why it matters: It states leadership's hold-forever stance. Strategy's own ledger still showed net bitcoin reductions from Jun 30 to Aug 10, 2026, so check filings, not slogans.

15 "Sell a kidney if you must, but keep the Bitcoin."

[POST ON X](#) Feb 27, 2025 @saylor [Source ↗](#)

Why it matters: Deliberate hyperbole for an extreme long-term mindset: a statement of conviction, not a plan to copy.

16 "Volatility is Vitality."

[POST ON X](#) Mar 21, 2024 @saylor [Source ↗](#)

Why it matters: Big price swings come with bitcoin and bitcoin treasury stocks. Saylor reads them as a sign of a living, growing asset.

17 "Everyone gets #Bitcoin at the price they deserve."

[POST ON X](#) Aug 14, 2021 @saylor [Source ↗](#)

Why it matters: It expresses a belief that people who study bitcoin sooner tend to act sooner. It is an opinion, not a rule of markets.

18 "Everyone is against Bitcoin before they are for it."

[KEYNOTE SLIDES](#) Jun 2024 "21 Rules," BTC Prague [Source ↗](#)

Why it matters: Most people start out as skeptics, so learning the arguments on both sides is part of the process.

19 "You will never be done learning about Bitcoin."

[KEYNOTE SLIDES](#) Jun 2024 "21 Rules," BTC Prague [Source ↗](#)

Why it matters: Bitcoin touches money, technology and law. Treat any guide, this one included, as a starting point.

20 "Cyber citadels glistening with digital energy, built on blocks of #bitcoin for the benefit of those not yet born."

[POST ON X](#) Apr 24, 2022 @saylor [Source ↗](#)

Why it matters: It captures the time horizon Saylor applies to bitcoin: decades and generations, not quarters.

21 "Bitcoin is Hope"

[POST ON X](#) Jun 13, 2025 @saylor [Source ↗](#)

Why it matters: To Saylor, bitcoin is a way to protect savings from inflation. His optimism is a view, not a forecast.
